"I do not personally know what horses have been furnished the Second Field Artillery or to any other State. The policy up to the date of this mobilization was to turn over to the State organization animals which were serviceable for med service with specifications. The policy that is bepurchase animals for all State organitations. These animals are being purchase under the quartermaster corps specifications for troops of the regular army.

"With reference to New York State, several boards of officers detailed by Gen. Wood personally for the purpose are inspecting animals for purchase for New York State troops up to 7,000 animals, the price being approximately \$140 feel artilliery horses, \$160 to \$2.00 feel artilliery horses \$2.

When the first train arrived the word spread that the soldiers were here and Italians from the settlement near the station formed an orchestra and serchade the troopers. Some one bought up the entire stock of a popcorn stand and distributed it among the soldiers. By P. M. all the trains had departed. The clove of the control of t

The transfer from one train to the other was more nearly a migration than a military movement, since the men were laden not only with their blanket rolls and marching equipment, but with such properties, from postal cards to bananas, as they had accumulated.

The 600 men on the first section were vaccinated against smallpox this afternoon, between Columbus and the Indiana line, by Capt. T. D. Lucas of the medical corps and three assistants. On the second section the work was done under the direction of First Lieut. Lefferts Hutton.
